ABSTRACT
The webinar will discuss the main methodological updates brought about by 2019 Financial Soundness Indicators Compilation Guide (2019 FSIs Guide) for the compilation of FSIs for deposit-takers, other financial corporations, and the real sectors in the context of the implementation of new FSIs report forms - beginning in January 2022. The new FSIs data and metadata templates to report the sectoral financial statements (consolidated balance sheet and income statement) and additional underlying series for the compilation of the FSIs as well as the new template on Concentration and Distribution Measures will be presented.

Experts from STA will be available during the webinar to answer questions about the compilation guide and recent innovations and discuss any issues relating to conversion of historical FSIs data to the new report forms.

WEBINAR OBJECTIVES
Upon completion of this webinar, participants will be familiar with recent FSI innovations and reporting forms.

TARGET AUDIENCE
This webinar is mainly designed for central bank officials, namely from supervision, research and statistics departments who have some interest or involvement in the compilation of FSIs for their institution/country.

There is no limit on the number of attendees. The event is open to all those interested. You are encouraged to share this invitation with colleagues in your agency and other officials whose professional engagements are closely related to the topic and will benefit from attending this webinar.
ABOUT THE SPEAKER

**Brian Kwok Chung Yee** is Senior Economist in the Financial Institutions Division, the IMF’s Statistics Department (STA). He recently joined the IMF from the Bank of Mauritius where he worked for more than 12 years as a bank supervisor. Brian was involved in the compilation and dissemination of FSIs for deposit-takers for Mauritius since 2009 and had also worked as a short-term expert on FSIs for the IMF prior to joining the World Bank. At the IMF, he is currently working on the implementation of the new FSIs guide.

**Mr. Tetsuo Kurosaki** is a senior economist at Financial Institutions Division, Statistics Department, the International Monetary Fund. Prior to joining the Fund, he was an economist at the Bank of Japan, where his main responsibility was banking supervision as well as analysis of financial markets. He earned bachelor and master degree in Physics from the University of Tokyo, and a Ph.D. degree in Quantitative Finance from State University of New York at Stony Brook.
